

Admissions Procedure

CRITERIA

The Skills Hub (TSH) is a co-educational Alternative Provision (AP) that caters for students in the London Borough of Hillingdon who cannot attend mainstream school for a variety of reasons.

Referrals may be made by the Local Authority or Hillingdon schools for:

- i. Children who have been permanently excluded from mainstream schools
- ii. Children who are at serious risk of being permanently excluded from mainstream schools
- iii. Children with a troubled educational history who have recently arrived in Hillingdon Borough and who cannot be placed immediately in a mainstream school
- iv. Children with SEN where a school placement is under review or consultation or where an assessment is required to confirm suitable provision
- v. Children with a medical diagnosis and prognosis in which they are unable to attend school
- vi. Children new to the Hillingdon Borough who are without a school place within two weeks. This is an exceptional arrangement with Hillingdon Local Authority

REFERRAL

Permanently excluded students

Permanently excluded students are entitled to receive full time provision on the 6th day following on from the school's decision to permanently exclude.

All children who have been permanently excluded should be referred by the excluding school or Hillingdon Borough's Access Officer so that provision can be made available to the child on the 6th day of exclusion pending the outcome of the Governing Body's review hearing.

If the Executive Principal is concerned that immediate admission may not be appropriate on health and safety grounds they will carry out a risk assessment and liaise with the TSH Triage Panel so that appropriate action can be taken to reduce the assessed risks to acceptable levels. In exceptional cases it may be considered that the levels of risks cannot be reduced to acceptable levels that would enable the child to be admitted to TSH.

In such situations the Triage Panel will work together to find appropriate provision for the child. The Executive Principal will determine the appropriate admission process in accordance with the needs of the referred child and in accordance with the requirement to provide access to full-time education for permanently excluded students.

Students at risk of permanent exclusion

Children who are at serious risk of permanent exclusion and need to be considered for admission to TSH should be referred to the Triage Panel before the start of a half term and should remain on the roll of the sending school. The process is as follows:

- i. The school makes prior contact with TSH to alert them that they may require a place.
- ii. The school completes a referral form and submits it before the start of a half term.
- iii. The referral is discussed by the Triage Panel and they decide whether or not a 'Tools 4 School' or development placement is suitable.
- iv. An admissions meeting is arranged by TSH with the child and their parents/carers. At this point the school will already have discussed with the parents and child the issues that have arisen and why a move away from the school is now required.
- v. A review meeting is then arranged for the school, parents and child back at TSH within 6 weeks. At this meeting it may be decided that a further 6 weeks at TSH is necessary or the child is ready to return to the school with support.

Students with medical needs

Children who are not able to attend school due to a medical diagnosis and prognosis will receive one to one tuition in the home or local library.

The process is as follows:

- i. The sending school contacts TSH to alert TSH that a student is unable to attend school due to a medical issue.
- ii. The sending school completes a referral form which must include a diagnosis and prognosis from a medical professional.
- iii. The referral is discussed at the Triage Panel.
- iv. Parents are contacted to arrange the student's timetable and a Risk Assessment of the home if necessary.
- v. Reviews meetings with parents and carers and the school are regularly conducted.

Children with Statements or Education Health Care Plans

Children with statements or Education Health Care Plans are permitted admission to TSH in exceptional circumstances, usually via the Pupil Support Team with one to one tuition.

OFFERS

If TSH can accept a referral, the Triage Panel will inform the Local Authority or school that the referral has been accepted including details of financial requirements, the support to be offered and a start date.

TRANSITION

When placement has been agreed, staff from the Academy will make contact with the student's current placement to arrange a transition programme with exchange of information and reciprocal visits where practical and appropriate.

EXIT CRITERIA

A permanently excluded student will be referred to Hillingdon Managed Move and Inclusion Panel if they are deemed ready to return to a mainstream school.
